Policy Document Regarding Green and Plastic Free Campus

Introduction

B. L. J. Government P. G. College recognizes the importance of environmental conservation and sustainability and commits to promoting responsible environmental practices within our campus and surrounding community. The purpose of this policy document is to outline the college's environmental objectives, commitments, and strategies for achieving them.

Policy Objectives

The following are the college's objectives for environmental management:

- Minimize the carbon footprint of the college by reducing energy consumption, emissions, and waste generation.
- Promote environmental awareness, education, and research among students, staff, and faculty.
- Foster a culture of environmental responsibility and social accountability within the college community.
- Comply with relevant environmental legislation, regulations, and standards.
- Encourage sustainable practices and technologies that promote resource efficiency, conservation, and protection of the natural environment.
- Partner with local and regional organizations to promote environmental stewardship and social justice.

Implementation Strategies

The college implements the following strategies to achieve its environmental objectives:

- Implement energy-saving measures in college buildings, such as efficient lighting and renewable energy sources.

- b) Reduce waste generation by promoting recycling, composting.
- c) Encourage the use of public transport, biking, and carpooling to reduce transportation emissions.
- d) Integrate environmental education and research programmes into the college's academic curriculum.
- e) Establish a green procurement policy that prioritizes environmentally friendly products and services.
- f) Develop and maintain a sustainability reporting framework that measures and communicates the college's environmental performance and progress towards its objectives.
- g) Establish partnerships with local and regional organizations to promote environmental stewardship, social justice, and community engagement.

Roles and Responsibilities

- The different Environmental Committees oversees the development, implementation, and monitoring of the environmental policy.

Conclusion

B. L. J. Government P. G. College is committed towards promoting environmental sustainability and responsible practices within our campus and surrounding community. By implementing the strategies outlined in this policy document, the college minimizes its environmental impact, educate, and engage its community, and contribute to the wider efforts towards a sustainable future.

Instruction To Be Followed Regarding Environment Friendly and Pollution Free Campus

Do's:

- Use eco-friendly products like reusable water bottles, bags, and containers.
- Reduce energy consumption by turning off lights and electronic devices *when not* in use.
- Use public transport or carpool to *reduce carbon emissions*.
- Participate in environmental activities and events on campus.
- Dispose of waste in proper recycling bins.
- Support sustainable practices on campus like composting and using renewable energy sources.
- Use natural light as much as possible by opening windows and using blinds *instead of artificial light*.
- Bring plants to your dorm room or office to help purify the air.

Don'ts:

- Don't litter on campus grounds or public spaces.
- Don't waste water by leaving taps running unnecessarily.
- Don't use single-use plastic products like straws, cutlery, and cups.
- Don't drive alone in a personal vehicle unless it's necessary.
- Don't contribute to air pollution by smoking on campus grounds.
- Don't waste electricity by leaving lights and devices on when not in use.
- Don't use non-biodegradable products that are harmful to the environment.
- Don't harm or disturb wildlife or natural habitats on or near campus.
